the QR code or tap the link in
this PDF.**

Care, help and reference

DAIKIN ALIRA X / WIRED CONTROLLER

Available modes and menu options depend on the installed unit and installer settings. The screen pictures show an example. Ask the installer to demonstrate enabled functions.

The OFF timer is optional. In Energy Saving List, select Off Timer using LEFT/RIGHT. Set ON or OFF with UP/DOWN. Press ENTER, select Yes, then ENTER. Leave other energy settings unchanged.

For a fault, record the displayed message for service. For smoke or a burning smell, stop use and isolate power if safe. Call 000 for fire or immediate danger.
